

WELCOME

Shield Protection Australia (SPA) was created to provide customers a new, modern extended warranty solution with their vehicle purchases. Shield Protection Australia was tired of seeing customers let down by traditional warranty providers through unfair claim handlings. Our warranty program was created by car people, for car people. SPA understands vehicles, understands real-world driving conditions, and understands what matters when something goes wrong.

This extended warranty product is designed to help reduce the financial impact of unexpected and potentially expensive mechanical and electrical repairs to your motor vehicle by providing the parts and labour coverage on covered components.

This warranty agreement is issued by the dealership in conjunction with the sale of a motor vehicle and is a contract between the dealership and the contract holder whose name appears on the schedule. The selling dealership has appointed Shield Protection Australia (ABN: 99 695 240 610) to administer this warranty agreement.

PRODUCT DISCLOSURE STATEMENT

BENEFITS OF THE MECHANICAL & ELECTRICAL WARRANTY

This product will benefit you should a mechanical or electrical failure occur, and that failure is caused by a defect or fault of a covered component under the terms of this warranty. In the event of a failure, covered components will be rectified up to the limits allowed. Further, SPA's experience, knowledge and expertise will direct your motor vehicle to the best and closest approved repairer.

This Mechanical & Electrical Warranty is not associated with the manufacturer of your motor vehicle nor is it an extension of any warranty that was provided by the manufacturer or the selling dealer. Claims against the manufacturer or the selling dealer may be available under the Australian Consumer Law. This warranty is not a repair or maintenance program for your motor vehicle.

COOLING OFF PERIOD

You may cancel this policy for any reason within 14 days from the application date of the product by notifying us in writing, by email or mail. Provided no claim has been paid or you have not made a valid claim, we will refund the premium paid, less any taxes or duties we cannot recover from other sources. After the cooling off period ends you still have cancellation rights (see section 7).

SUMMARY OF RIGHTS UNDER THE ACL

The vehicle sold to you by the dealership comes with certain protections under the Australian Consumer Law (ACL). The extent of your rights under ACL depends on the nature of goods, the price, any representations made by the dealership and other relevant circumstances. The goods must be free of defects, do what they are meant to do, be safe, durable and acceptable in appearance and finish, and be fit for any particular purpose that the consumer makes known. The products offered to you by SPA do not substitute the rights you have under the Australian Consumer Law (ACL).

Where there is a major failure of the goods, consumers are entitled to reject the goods and choose a replacement or refund and claim compensation for any reasonably foreseeable loss or damage suffered as a result of the failure. Where the failure does not amount to a major failure, consumers are entitled to have the supplier repair or replace the goods (at the supplier's choice).

TERMS AND CONDITIONS

1. COVERAGE

This Breakdown Warranty covers only the covered components of the motor vehicle listed below. Any component or item not listed below is not covered by this Breakdown Warranty.

Please note that a failure of these components means the inability of any covered part(s) to perform the function(s) for which it was designed, taking into consideration the age and mileage of the vehicle.

**GREAT RATES
RELIABLE COVERAGE
DRIVE WITH CONFIDENCE**

Covered Components

Engine:

Engine block (if damaged by internal components), cylinder head, valves, lifters, head gasket, balance shaft, camshafts, crankshaft, internal bushes, connecting rods, big end bearings, oil pump, cylinder wrist pins, piston rings, gudgeon pins, pistons and meshing timing gears only

Gearbox/Transmission:

All internally lubricated parts in the transmission case, torque converter and transfer case only.

Differential:

All internal lubricated parts within the differential case only.

Cooling System:

Water pump, viscous fan hub, fan blades, thermostat only.

Electrical System:

Starter motor, alternator, voltage regulator, windscreen wiper motor, rear window wiper motor, windscreen washer pump only.

Braking System:

Brake booster, brake master cylinder, front and rear brake calipers, brake caliper slide pins, proportioning valve only.

Air Conditioning:

Compressor, condenser and evaporator only.

Drive Shafts, CV Joints & Universal:

Drive shafts, universal joints, centre bearings, tail shafts, tail shaft coupling only. Does not include CV dust boots.

Braking System:

ABS electronic module, wheel speed sensors only.

Steering System:

Power steering pump, power steering rack and pinion, power steering box (specifically excludes rack ends and rack boots) only.

Fuel System:

Fuel pumps, suction control valve, fuel injectors only (excludes fuel metal lines).

Power Window Motors & Switches:

Power window motor, power window regulators only (specifically excluding sunroofs).

Radiator:

Engine cooling radiator only.

Ignition System:

Ignition switch, ignition coil, crank angle sensor only.

Electronic Computers:

Transmission control module (TCM), mechatronics units, solenoids, engine control module (ECU).

Turbocharger:

Turbo impeller and bearings, turbo housing, turbo actuator (this cover only applies to factory-fitted turbochargers) only.

Clutch:

Clutch master cylinder, slave cylinder, (specifically excluding clutch plate, pressure plate, throwout bearing) only.

Other:

Cylinder head gaskets and seals will be replaced only when such replacement is required in the normal course of repair of a covered component only.

2. EXCLUSIONS

The following are not covered under this product:

Continued Operation

Any damage or repairs required as a result of continued operation of the vehicle once a defect or fault has occurred (including loss of lubricants and coolant).

Maintenance

Any claim caused by the contamination of and/or any failure to maintain proper levels of any fluids of lubricants; and/or any failure caused by the incorrect grade. Includes breach of service requirements where you exceed the service requirement intervals.

Inactive Warranty

If your warranty is inactive because the claim date is before or after the warranty commencement date as listed in the Schedule.

Misleading Statements

Where claims, declarations or statements made by you are false, inaccurate or misleading, the warranty ceases to have effect.

Misuse or Abuse

Failure to follow or exceed the vehicle manufacturer's operating guidelines or abuse

Modified Vehicles

Claims relating to any failure as a result of alteration or modification to the manufacturer's specifications or vehicles used for racing competitions

Unauthorised Repairs

Unauthorised repairs / claims relating to any vehicle where work or repairs are commenced or completed without the prior consent and authorisation of SPA.

Other incidents

Failure caused by collision or accidental damage, fire, overheating, theft, misuse, neglect, negligence, corrosion, flood and water ingress

Wear and Tear

Any listed component that is determined to have reached their intended lifespan and naturally & inevitably require replacing. Important to note that the deterioration in performance of a listed component over time may result in it becoming noisy or stretched and as such, does not constitute a failure.

Miscellaneous

Any tappings, threads, fixings and/or fastening devices or repairs as a result of these components not being fitted correctly or in accordance with the manufacturer's logbook recommendations.

Leaks and Belts

Water leaks, oil leaks, oil seals, O-rings, belts, timing belts, drive belts & hoses.

3. HOW TO MAKE A CLAIM

Please refer to the [Claims Checklist Form](#) before any repair works are started if you wish to claim against this warranty. The Claims Checklist Form can be found at the back of this document, or online at www.shieldprotectionaustralia.com.au/forms

In the event of failure of a component covered by this warranty, take your vehicle to a licensed mechanical workshop.

The approved repairer will need to provide SPA with a quote outlining:

- the warranty product number
- registration number
- odometer reading
- detailed list of replacement parts and the labour required to fix them.

You may be contacted by SPA's claims department for the purpose of discussing options available to you in respect of your claim. SPA has the right to nominate an approved repairer of their choice.

Once the claim is reviewed and approved, SPA shall authorise the approved repairer to invoice them for the approved amount, along with a claim approval number. SPA will pay the approved repairer upon receiving receipt of a valid tax invoice made out to Shield Protection Australia. **We are not responsible for any unauthorised repairs without a claim approval number.**

You should advise your repairer that any repairs we agree to pay for must be undertaken by an SPA approved repairer at a price acceptable to SPA. Your repairer will know if they are approved by SPA, otherwise, they can call SPA to confirm.

You will be responsible for any shortfall between the final invoice amount from the approved repairer and the claim approval amount. SPA or a qualified assessor reserve the rights to inspect any damage prior to any works being performed.

You will be responsible for all diagnostic costs incurred to ascertain whether a failure is covered under the warranty unless accepted as part of an authorised claim. In some cases, you will be given the opportunity to contribute something towards the cost of the repairs, i.e. any repairs that restore the motor vehicle to a better condition than the condition prior to the failure. Parts for repairs can generally be sourced at a lower cost by SPA and **in the event a covered component requires replacement, SPA may replace it with a reconditioned or similar component.**

You can submit a claim by email or mail. Contact details are:

SHIELD PROTECTION AUSTRALIA
PO BOX 127 Underwood, QLD 4119
admin@shieldprotectionaustralia.com.au
Office Hours: Monday to Friday 9am to 4pm (AEST)

Repairs which are carried out without consent or approval by SPA will constitute an automatic invalidation of the claim.

4. YOUR OBLIGATIONS

From the date your warranty commences, you must comply with the following conditions. **Failure to comply with these conditions may invalidate a claim.**

Engine, Transmission and Differential

Vehicles covered by this policy must be serviced every 6 months or 10,000 kilometers, whichever occurs first, or as per your manufacturers servicing schedule. This regular service schedule can be completed at any licensed service facility of your choosing.

All other components

No servicing requirements required. Coverage on all other mechanical and electrical covered components for the term of the product.

The cost of the service is your responsibility and not payable by this warranty.

Please keep a record of your vehicle's service history by means of the service invoice. **Ensure it shows the date and odometer reading for each time your vehicle is serviced.** SPA will require proof of the vehicle's service history and maintenance history if you claim under this warranty. The processing of your claim may be delayed or declined if SPA does not have invoices or other satisfactory evidence detailing the service history of the motor vehicle.

It is important that any person in control of the motor vehicle, must take all reasonable precautions to minimise damage to the covered components and/or the motor vehicle, and must not continue to operate the motor vehicle if damage to a covered component is reasonably suspected. You must take all reasonable care to maintain the roadworthy condition of the Motor Vehicle.

If you exceed the service requirement intervals by more than 30 days or 1,000 kilometers, whichever occurs first, your warranty becomes inactive, and it may affect your entitlement to make a claim under this warranty. If your warranty becomes inactive you can reactivate it by following the 'Warranty Reactivation Form' available on the website www.shieldprotectionaustralia.com.au/forms

5. LIMITS OF LIABILITY

1. The benefit limit per claim is specified on the Product Schedule. The benefit limit indicates the limit of each claim at any one time on any one claim regardless of the number of covered components claimed against.
2. The total benefit limit for the total of all claims is limited to the market value of your motor vehicle at the time of purchase, or the limit of \$120,000, whichever is the lesser.
3. Subject to the satisfactory completion of repairs, any payment made to you or directly to the approved repairer for covered components will be considered full and final settlement of the claim.
4. Failure of a covered component means the inability of the part(s) to perform the function(s) for which it was designed, taking into consideration age of the vehicle and distance travelled.
5. All benefit limits are the GST inclusive cost of the repairs.
6. If SPA does not receive a payment within seven (7) days of the application date, the warranty product will be considered never to have commenced and SPA will advise you of the declined coverage.

6. MISCELLANEOUS

1. This is a warranty for used motor vehicles, therefore a part may be worn but still quite safe and serviceable.
2. We will not be liable or held responsible for any damage occurring while the motor vehicle is left unattended or being towed.
3. We will not be held responsible for any delays due to a lack of supply of parts or any materials needed to complete any work undertaken.
4. The odometer must be accurate and maintained in good working order. If at any time the odometer has been tampered with or altered, or should any false statement be made by you or any person acting on your behalf, then this warranty will become void and your rights to claim will be forfeited in respect of any present and future claims.
5. Repairs which are carried out without contacting the claims department will constitute an automatic invalidation of the claim.
6. Work started or stripped down for an inspection without authorisation renders the claim null and void.

7. CANCELLATION

You may cancel your warranty at any time by providing your cancellation request in writing, via mail or email. If you cancel your product, your cover will end on the date we receive your cancellation request.

Cancellations will be processed on a pro-rata basis on the retail price based on the number of full unexpired days of the cover remaining, less the cost of any accepted claim and an administration fee of \$330. If the warranty premium is financed, any refund may be made to the financier or whomever the financier directs us to pay.

8. TRANSFER

If you sell the vehicle you can apply to transfer this warranty to the new owner, provided the transfer occurs within 7 days of the date of sale. It is important to follow these steps to transfer the warranty successfully:

- Complete Warranty Transfer form www.shieldprotectionaustralia.com.au/forms
- An administration fee of \$75 and a copy of a current safety certificate is forwarded to SPA.

Please note you may only transfer a valid, active warranty. Transfer is not acceptable to a licensed motor dealer or if sold via a Licensed Motor Dealer other than the original selling agent.

Submit your Warranty Transfer application via email: admin@shieldprotectionaustralia.com.au

Declaration by Contract holder: I/We confirm that I/we have read, understand and agree to the Terms and Conditions of the Warranty outlined in this document and in particular are aware of and note the Service Requirements.
